be you tiful

Clothes and jewellery should be startling individual when you see a woman in my clothes you want to know more about them to me that is what distinguishes good designers from bad designers.

Women think of all colors except the absence of color
I have said that black has it all white too their beauty is absolute It is the perfect harmony.

While clothes
may not make
the woman
they certainly
have a strong
effect on her
self confidence
which I
believe does
make the
woman.

Fashion is so close in revealing a person's inner feelings and everybody seems to hate to lay claim to vanity
so people tend to push it away It's really too close to the quick of the soul.

Just around the corner in every woman's mind is a lovely dress
a wonderful suit or entire costume which will make an enchanting new creature of her.

STEF

Fashion is really about sensuality how a woman feels on the inside In the women used suits with exaggerated shoulders and waists to make a strong impression women are now more comfortable with themselves and their bodies they no longer feel the need to hide behind their clothes.

Fashion anticipates and elegance is a state of mind
a mirror of the time in which we live a translation
of the future and should never be static.
